Commissioner for Patents

The reply to restriction requirement filed on 12/20/06 electing Group I (claims 1-3 and 34-49) directed to the inventive concept encompassing electrodes of an electrochemical battery is non-responsive. In this aspect, it is noted that applicant did not make an election of species. Accordingly, elected claims 1-3 and 34-49 are drawn to the elected invention but the election of species presenting only claims readable on and/or drawn to any of the mutually exclusive species indicated in the requirement for restriction dated 11/21/06 (See item 6 of said restriction requirement) has not been made. That is to say, applicants failed to address the election of species requirement. It is further noted that elected claims 1-3 and 34-49 are not readable on a single species per se, thus, elected claims 1-3 and 34-49 appear to read on several distinct species.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
